Subtitle timing exception review

Illustrative source input

These small fixture records are fictional. They show the input shape and the decisions a reviewer must make. They are not data exported from a connected customer account.

Cue	Start-end	Text
1	00:00:01-00:00:03	Welcome.
2	00:00:02-00:00:04	This overlaps.
3	00:00:05-00:00:05	Zero duration.

Review rule

Timing findings use the fixture cues. Do not claim audio verification or invent a spoken word without the recording.

How to inspect this example

Compare each result with its source row. Missing information stays unresolved. Proposed changes remain separate from observed facts. Download the accompanying JSON to inspect the input and output without a screenshot.

Scope of this sample

This is a shared, app-neutral worked excerpt, not a complete paid package, a client case study or a live integration test. A real delivery uses the agreed source files, quantities, formats and acceptance checks. Application-specific export schemas and connected permissions must be verified separately.
