

Competitor pricing snapshot

Executive summary

As of 2026-08-01, we captured public pricing for three competitors: TaskRiver, NoteBridge, and RelayBox. All prices are normalized to monthly per-workspace or per-user basis as applicable. TaskRiver Team is USD 8/user/month (monthly billing) with 100 GB storage. NoteBridge Pro is USD 70/workspace/month for up to 10 users (monthly billing). RelayBox Business is EUR 6/user/month (monthly billing) with unlimited projects. Annual billing prices and additional-user pricing are unresolved where not published. All prices are bound to dated public evidence.

scope

This snapshot covers three public pricing pages: TaskRiver, NoteBridge, and RelayBox. The scope is limited to the supplied synthetic evidence bundle (closed corpus) as of 2026-08-01. We normalize monthly list prices for one workspace with ten users. We do not include private or negotiated enterprise quotes, and we do not perform authenticated scraping.

method

We extracted pricing facts from each evidence source, recording the published price, currency, billing period, and any stated limits. For each competitor, we normalized the price to a monthly per-workspace or per-user basis as applicable. Where a price was not published (e.g., annual billing or additional-user pricing), we marked it as unresolved. All prices are bound to the source IDs and observation date.
