

Contact cleanup and duplicate review

Illustrative source input

These small fixture records are fictional. They show the input shape and the decisions a reviewer must make. They are not data exported from a connected customer account.

ID	Email	Consent
C01	Ada@Example.test	opted-in
C02	ada@example.test	opted-out
C03	broken-address	unknown

Review rule

Normalize whitespace and email case in a copy. Preserve source IDs and consent. Matching email does not authorize a destructive merge.

Contact cleanup and duplicate review

Worked output excerpt

Source or item	Delivered observation or proposed result
C01	ada@example.test / duplicate group D1
C02	ada@example.test / suppression preserved
C03	held for correction / no invented address

How to inspect this example

Compare each result with its source row. Missing information stays unresolved. Proposed changes remain separate from observed facts. Download the accompanying JSON to inspect the input and output without a screenshot.

Scope of this sample

This is a shared, app-neutral worked excerpt, not a complete paid package, a client case study or a live integration test. A real delivery uses the agreed source files, quantities, formats and acceptance checks. Application-specific export schemas and connected permissions must be verified separately.
