

Source-grounded content draft review

Illustrative source input

These small fixture records are fictional. They show the input shape and the decisions a reviewer must make. They are not data exported from a connected customer account.

Source claim	Approved evidence	Draft decision
24-hour setup	not verified	hold
exports CSV	approved product note	use
unlimited support	no policy	hold

Review rule

Do not convert an unverified claim into persuasive copy. Drafting does not publish posts, send campaigns or guarantee engagement.

Source-grounded content draft review

Worked output excerpt

Source or item	Delivered observation or proposed result
Observation 1	Draft: Export your results as CSV for review in your existing workflow.
Observation 2	Questions: confirm setup timing and support limits before publishing.

How to inspect this example

Compare each result with its source row. Missing information stays unresolved. Proposed changes remain separate from observed facts. Download the accompanying JSON to inspect the input and output without a screenshot.

Scope of this sample

This is a shared, app-neutral worked excerpt, not a complete paid package, a client case study or a live integration test. A real delivery uses the agreed source files, quantities, formats and acceptance checks. Application-specific export schemas and connected permissions must be verified separately.
